Subham Gupta

AI Full-Stack Developer

+91-7003051164 subhamkumargupta1234@gmail.com LinkedIn GitHub India

PROFESSIONAL SUMMARY

Full-Stack Developer with 1+ year of production experience at Accedo Technologies, building CMS and audience management systems for **Tata Play Binge** and **SBS CTV** — two of the world's prominent **OTT** platforms. Proficient in **TypeScript, React, Next.js, Node.js, and MongoDB**, with hands-on experience in **JWT** authentication, Role-Based Access Control, and middleware integration. Comfortable across the stack — from designing **REST APIs** and **NoSQL** schemas to building accessible, component-driven UIs. Improved system stability through Jest-based test coverage and delivered client-specific integrations in fast-paced, agile environments.

WORK EXPERIENCES

Accedo Technologies
Apr 2025 - May 2026

Junior Software Engineer — *Noida*

- Developed a production-grade CMS using TypeScript, React, Next.js, Express.js, and MongoDB, supporting content operations for major OTT platforms.
- Engineered a multi-step audience data form for **Tata Play Binge** using **Preact** and **TypeScript** with full validation, state management, and WCAG-compliant accessible UI — cut form error rate by ~40%.
- Implemented **JWT** authentication and Role-Based Access Control (**RBAC**) securing 10+ protected **API** endpoints across the CMS platform.
- Improved **SBS CTV** product stability through **Jest**-based test coverage (increased coverage by ~30%), multilingual workflow enhancements, and UI components for the AI-policy module.
- Integrated the Magnaquest provider into AccedoAssemble **middleware**, enabling seamless third-party compatibility and reducing client onboarding effort by ~25%

Brain Mentors Pvt. Ltd.
Oct 2024 - Jan 2025

MERN Training — *Ghaziabad*

- Built full-stack applications with MongoDB, Express.js, React.js, and Node.js. Architected secure REST APIs, implemented authentication systems, and strengthened component-based UI skills.

EDUCATIONS

Raj Kumar Goel Institute of Technology
Jul 2020 - Jul 2024

Bachelor of Technology — *CGPA : 78%*

PROJECTS

WashPro – Laundry Service Management System | Github
Jul 2024 - Sep 2024

- Built a production-ready admin portal managing 500+ service orders with multi-stage order tracking and automated pricing.
- Designed a scalable NoSQL schema using Mongoose supporting 10+ entity relationships; optimised rack assignment and real-time order tracking.
- Integrated Redis caching layer reducing average API response time by ~30% under peak load.

Technologies / Tools Used : *React.js, Node.js, Express.js, MongoDB, Typescript, Redis, Tailwind CSS*

Real-Time Chat Application | Github
Mar 2024 - Jun 2024

- Built real-time messaging with Socket.io supporting instant delivery and live user status across 50+ concurrent connections.
- Reduced frontend load time by 20% through optimised API calls and efficient state management.
- Structured MongoDB schemas for efficient chat history storage and session handling.

Technologies / Tools Used : *React.js, Node.js, Express.js, MongoDB, Socket.io*

Scalable URL Shortener | Github
Jan 2024 - Mar 2024

- Built a high-performance URL shortening service with Redis caching, reducing redirect latency by ~50ms on cached routes.
- Designed a unique ID generation system for short links and containerised the app with Docker for consistent deployments.

Technologies / Tools Used : *Node.js, Express, MongoDB, Redis, Typescript, React.js, Docker, REST API*

SKILLS

Programming Languages :	C++, JavaScript (ES6+), SQL, Python
Frameworks & Libraries :	Preact, Vite, Vitest, Express, Nest.js, Node.js, Jest, React.js, TypeScript, Next.js, FastAPI
Databases :	MongoDB, Redis, PostgreSQL
Tools & Platforms :	VS Code, Git, GitHub, PostMan, Jira, Bruno, Swagger, Docker, GitHub Actions, Kubernetes, CI/CD, RabbitMq, GraphQL
Cloud :	AWS (EC2, S3, IAM, RDS, Lambda, API Gateway)
